Mission Statement

The Mission of St. Paul Teachers' Retirement Fund Association is to:

- Provide our members and their beneficiaries with retirement, survivor and disability benefits as specified in law and the Association Articles and Bylaws.
- Assist our members in planning a secure retirement by providing friendly, high quality, consumer oriented service, pre-retirement education and information in a professional and cost effective manner.
- Prudently invest the assets of the fund to provide the optimum return while preserving principal by controlling the portfolio risk.

The Board of Trustees of the St. Paul Teachers' Retirement Fund Association (SPTRFA) submits herewith the Financial Report for the fiscal year July 1, 1998 to June 30, 1999 in accordance with the provisions of Minnesota Statutes 356.20.

The financial statements of the Association were audited by the Office of the State Auditor. A copy of the report is included in this document.

Portions of the Actuarial Valuation from the actuary retained by the Legislative Commission on Pensions and Retirement, Milliman and Robertson, Inc., are also included in this report. The complete reports are on file in our office.

Legal services were performed by the firms of Doherty, Rumble & Butler, and Oppenheimer, Wolfe & Donnelly, LLP, our legal counsel.

REVENUES

The reserves required to finance benefits come from employee and employer contributions and through investment gains. During fiscal year 1998-99, total contributions amounted to \$32,714,646. Net investment income including unrealized market appreciation for the same period was \$67,225,297.

EXPENSES

Benefits to annuitants, disabilitants, survivors and dependent children paid in this fiscal year totaled \$41,724,750. Refunds to members who left the Association totaled \$692,746. Administrative expenses amounted to \$417,041.

INVESTMENTS

page

ເດ

The investments of SPTRFA had a rate of return of 9.45% for the fiscal year ending June 30, 1999. This return is over the 8.5% rate the actuaries assume when determining our funding status. The net assets of the fund held in trust for pension benefits increased from \$744,660,838 on June 30, 1998, to \$801,954,037 on June 30, 1999.

MEMBER SERVICES

Member service continues to be an important reason for our independent existence. Again this year, through school visitations, members were able to obtain pertinent information about their pension benefits. During the year, our Information Officer, Stacey Estes, left SPTRFA in pursuit of a MBA. We have replaced Stacey with Kim Myers, a recent graduate of Hamline University. Over 300 active members at 22 schools met with a retirement counselor for an individual consultation.

SPTRFA sent detailed benefit estimates to each vested member over age 45. All members under age 45 received a statement of account. We also conducted our fourth annual Retirement Planning Seminar, which focuses on long term retirement planning.

The document you are reading is the complete Annual Report of the Board of Trustees. A copy of this report has been mailed to each school building and location where members work. To save printing costs, each member has been sent a summary version of this report which contains all of the relevant information but less detail. A complete Annual Report will be sent to any member on request.

FUNDING

The Actuary for the State of Minnesota, Milliman & Robertson, Inc. determines the funding status of our Association. This year, the funding ratio is 75.01%. This is an increase from the 72.55% funding ratio for fiscal year 1998. This increase shows that SPTRFA is on track to attain full funding by our target date of 2020.

LEGISLATION

The 1999 legislative session was positive for SPTRFA. The most notable piece of legislation that was enacted dealt with process and procedures for an active member to purchase prior maternity, military, private and parochial school service, or out of state teaching service. This "portability" legislation has been sought by members for many years.

ADMINISTRATIVE SERVICE CHARGE

This newsletter contains a summary of the calculation of the member service charge as required by law. Based on the administrative expenses for the current year, the member service charge will be zero beginning January 1, 2000. Members will not be assessed a service charge because the administrative expense of SPTRFA was less than our benchmark.

90TH ANNIVERSARY OF SPTRFA

SPTRFA is celebrating its 90th anniversary this year, as it was established in 1909 under the provisions of the Laws of Minnesota. Membership was initially voluntary, and members paid an initiation fee of \$5. Dues were 1% of salary, paid on a semi-annual basis. Originally, the benefit amount for members was \$30 per month.

Numerous improvements in benefits and funding have occurred since our beginnings. The fund now exceeds \$800 million, and the annual payroll for the retirees is approximately \$42 million. On January 1, 2000, all qualified retirees will receive a 9.2619% post-retirement increase. Over the past 90 years, SPTRFA has had a rich history of helping its members gain a successful retirement.

On behalf of the members of the Board of Trustees we wish to express our gratitude to the Association staff, ISD #625, and to others who have helped assure our successful operation. We pledge to continue to administer the affairs of the Association in the most competent and efficient manner possible.

Respectfully submitted,

James P. Gillach

INDEPENDENT AUDITOR'S REPORT

Board of Trustees St. Paul Teachers' Retirement Fund Association

We have audited the basic financial statements of the St. Paul Teachers' Retirement Fund Association as of and for the years ended June 30, 1999 and 1998, as listed in the table of contents. These basic financial statements are the responsibility of the Association's management. Our responsibility is to express an opinion on these basic financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the plan net assets of the St. Paul Teachers' Retirement Fund Association as of June 30, 1999 and 1998, and the changes in plan net assets for the years then ended in conformity with generally accepted accounting principles.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The required supplementary information referred to in the table of contents is not a required part of the basic financial statements but is required by the Governmental Accounting Standards Board. We have applied certain limited procedures to the information in the schedules, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it. In addition, we do not provide assurance that the St. Paul Teachers' Retirement Fund Association is or will become year 2000 compliant, that the Association's remediation efforts will be successful in whole or in part, or that parties with which the Association does business are or will become year 2000 compliant.

NOTES TO THE BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 1999

1. Summary of Significant Accounting Policies

Reporting Entity

The St. Paul Teachers' Retirement Fund (Fund) is a single-employer defined benefit pension fund administered by the St. Paul Teachers' Retirement Fund Association (Association), pursuant to the Association's bylaws and Minn. Stat. chs. 354A and 356. The Fund's membership consists of eligible employees of Independent School District 625, St. Paul, employees formerly employed by Independent School District 625, charter schools, and the employees of the Association. The Association is governed by a ten-member Board of Trustees.

Basis of Presentation

The accompanying financial statements are presented in accordance with Governmental Accounting Standards Board (GASB) Statement No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*.

Basis of Accounting

The basis of accounting is the method by which revenues and expenses are recognized in the accounts and reported in the financial statements. The Association uses the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when they are earned and collection is reasonably assured, and expenses are recognized when the liability is incurred.

Investments

Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on an exchange are valued at the last reported sales price at current exchange rates.

1. Summary of Significant Accounting Policies

Investments (Continued)

Net appreciation (depreciation) in fair value of investments includes net unrealized and realized gains and losses. Purchases and sales of securities are recorded on the trade date.

The Association participates in a securities lending program. In accordance with GASB Statement No. 28, *Accounting and Financial Reporting for Securities Lending Transactions*, investments lent under the program are reported as assets on the balance sheet and collateral received on those investments is reported as an asset and a liability.

Derivative Investments

The Association invests in futures contracts using a static asset allocation investment strategy.

Upon entering into a futures contract, each party is required to deposit with the broker an amount, referred to as the initial margin, equal to a percentage of the purchase price indicated by the futures contract. In lieu of a cash initial margin, the Association holds certain investments in its account for the broker as collateral. Subsequent deposits, referred to as variation margins, are received or paid each day by each party equal to the daily fluctuations in the fair value of the contract. These amounts are recorded by each party as unrealized gains or losses. When a contract is closed, each party records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

Futures contracts involve, to varying degrees, credit and market risks. The Association enters into contracts only on exchanges or boards of trade where the exchange or board of trade acts as the counterparty to the transactions. Thus, credit risk on such transactions is limited to the failure of the exchange or board of trade. Losses in value may arise from changes in the value of the underlying instruments or if there is an illiquid secondary market for the contracts.

1. <u>Summary of Significant Accounting Policies</u> (Continued)

Investment Income

Interest income is recognized when earned on an accrual basis. Dividend income is recorded on the ex-dividend date.

Contributions

Member employee contributions are recognized when withheld or when paid directly by the member employee. Employer contributions are recognized as a percentage of covered payroll as earned. Direct state aid and state amortization aid are recognized pursuant to state statute.

Benefits and Refunds

Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Furniture and Fixtures

Furniture and fixtures are carried at cost less accumulated depreciation. Depreciation has been provided using the straight-line method over estimated useful lives ranging from five to ten years.

2. Description of Plans

The following brief description of the plans is provided for general information purposes only. Participants should refer to the plan agreements for more complete information.

The plans are not subject to the provisions of the Employee Retirement Income Security Act of 1974.

General

The Association was created to provide retirement and other specified benefits for its members. The Association maintains two defined benefit pension plans covering all teachers in the St. Paul Public School System.

2. Description of Plans

General (Continued)

Effective July 1, 1978, the Association established a plan, coordinated with Social Security, in accordance with Minnesota statutes (the Coordinated Plan). Teachers who became members of the Association subsequent to June 30, 1978, automatically became members of the Coordinated Plan. Members' contributions and benefits under the Coordinated Plan have been adjusted to reflect contributions to and benefits from Social Security. Teachers who were members of the Association prior to July 1, 1978, are generally covered under the Basic Plan, which provides all retirement benefits for its members.

Membership

At June 30, 1999 and 1998, the Association's membership consisted of:

	1999	1998
Retirees and beneficiaries currently receiving benefits	1,860	1,789
Terminated employees entitled to but not yet receiving benefits Terminated, non-vested	220 1,108	183 839
Current active plan members (including members on leave)	4,615	4,653
Total Membership	7,803	<u> </u>

Pension Benefits

Members who satisfy required length-of-service and minimum age requirements are entitled to annual pension benefits equal to a certain percentage of final average salary (as defined in each plan) multiplied by the number of years of accredited service.

2. Description of Plans (Continued)

Disability Benefits

Active members who become totally and permanently disabled and satisfy required length-of-service requirements are entitled to receive annual disability benefits as calculated under each plan.

Other Benefits

Limited service pensions, deferred pensions, survivor benefits, and family benefits are available to qualifying members and their survivors.

3. Deposits and Investments

Deposits

Minn. Stat. § 356A.06 authorizes the Association to deposit its cash in financial institutions designated by the Board of Trustees. At June 30, 1998, the carrying amount of the Association's deposits was \$964,892 and the bank balance was \$283,147. At June 30, 1999, the carrying amount of the Association's deposits was \$1,470,074 and the bank balance was \$1,445,347.

Minnesota statutes require that all Association deposits be covered by deposit insurance, surety bond, or pledged collateral.

The following is a summary of the June 30, 1999, insurance and collateral as it relates to the Association's custodial credit risk for its deposits.

Covered Deposite	Bank Balance
Covered Deposits Insured, or collateralized with securities held by the	
Association or its agent in the Association's name	\$ 1,268,638
Uncollateralized	176.709
Total	<u>\$ 1,445.347</u>

3. <u>Deposits and Investments</u> (Continued)

Investments

The Association's investments are categorized to give an indication of the level of custodial credit risk assumed by the Association at year-end. Category 1 includes investments that are insured or registered or for which the securities are held by the Association or its agent in the Association's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the counterparty's trust department or agent in the Association's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty, or by its trust department or agent, but not in the Association's name.

Minn. Stat. § 356A.06 authorizes the types of securities available to the Association for investment. Following are the Association's investments at June 30, 1999 and 1998, and the level of custodial credit risk for these investments.

1999	Risk <u>Category</u>	Carrying and Fair Value
Commercial paper	1	\$ 7,500,000
Commercial paper	3	48,844,264
U.S. government securities	1	56,832,858
Corporate bonds	1	49,536,508
Common stocks	1	55,476,416
Repurchase agreements - invested		
securities lending collateral	3	64,630,521
Total		\$ 282,820,567
Add		
Investments held by broker-dealers under securities loans		
U.S. government securities		24,876,152
Corporate bonds		4,650,093
Common stocks		33,473,018
Commingled investment funds		531,122,686
Total Investments		<u>\$ 876,942,516</u>

3. Deposits and Investments

Investments (Continued)

1998	Risk <u>Category</u>	Carrying and Fair Value
Commercial paper	1	\$ 10,000,000
Commercial paper	3	4,935,459
U.S. government securities	1	26,422,921
Corporate bonds	1	67,124,045
Common stocks	1	143,523,256
Repurchase agreements - invested		
securities lending collateral	3	<u>186,173,173</u>
Total		\$ 438,178,854
Add		
Investments held by broker-dealers under securities loans		
U.S. government securities		53,190,531
Corporate bonds		2,334,342
Common stocks		126,829,481
Commingled investment funds		307,221,522
Invested securities lending collateral		385,143
Total Investments		<u>\$_928,139,873</u>

The Association has no concentration of five percent or more of the plan's net investments in securities of a single organization.

The investments of the Association are governed primarily by an investment authority known as the "prudent person rule." The prudent person rule, as set forth in Minn. Stat. § 356A.04, subd. 2, establishes a standard for all fiduciaries, which includes any party that has authority with respect to the system.

4. <u>Securities Lending Program</u>

The Association participates in a securities lending program. On June 30, 1999 and 1998, 28 and 44 percent, respectively, of its U.S. government securities, corporate bonds, and common stocks were loaned out.

4. <u>Securities Lending Program</u> (Continued)

Minn. Stat. § 356A.06, subd. 7, permits the Association to enter into securities lending transactions. These are loans of securities to broker-dealers and other entities for collateral with a simultaneous agreement to return the collateral for the same securities in the future. Loans may be made only to pre-approved borrowers. The Association's securities custodian is the agent in lending the Association's securities for collateral of 102 percent of the market value of Loaned investments are marked to market daily. If the loaned securities. collateral provided by the borrower falls below 100 percent of the market value of the loaned investment, the borrower is required to provide additional collateral to bring the collateral to 102 percent of the current market value. Collateral may be provided in securities or cash. All of the collateral at June 30, 1999 and 1998, was provided in cash. The Association has no credit risk exposure to borrowers because the amounts the Association owes borrowers exceed amounts borrowers owe the Association. The contract with the trust company does not require the trust company to indemnify the Association if borrowers fail to return the securities but does provide for the trust company to deliver collateral up to the market value of the loaned securities to the Association.

All securities loans may be terminated on demand by either the Association or the borrower. The term to maturity of the securities loans is matched with the term of maturity of the investment of the cash collateral by investing in overnight repurchase agreements and short-term investment pools.

5. Contributions

<u>Funding</u>

Benefit and contribution provisions are established by state law and may be amended only by the State of Minnesota Legislature.

Minn. Stat. § 354A.12 sets the rate for employee and employer contributions that, expressed as a percentage of annual covered payroll, are sufficient to fully fund the pension plan by the year 2020. The requirement to reach full funding by the year 2020 is set in Minn. Stat. § 356.215, subd. 4g. As part of the annual actuarial valuation, the actuary determines the sufficiency or deficiency

5. Contributions

Funding (Continued)

of the statutory contribution rates toward meeting the required full funding deadline. The actuary compares the actual contribution rate to a "required" contribution rate. The required contribution rate consists of: (a) normal costs based on entry age normal cost methods, (b) a supplemental contribution for amortizing any unfunded actuarial accrued liability by the required date for full funding, and (c) an allowance for administrative expenses.

Required Contributions

For the fiscal years ended June 30, 1999 and 1998, the contribution rates required by statute were as follows:

		Percentage of Members' Salaries		
	Basic Plan	Coordinated Plan		
Employee contribution Employer contribution	8.00% 11.64	5.50% 8.34		

Other Contributions

Minn. Stat. § 354A.12, requires the state to annually provide the Association with direct aid until it reaches the same funded status as the Minnesota Teachers' Retirement Association (TRA). The direct state aid contribution was \$2,827,000 and \$4,827,000 for fiscal years 1999 and 1998, respectively.

Minn. Stat. § 423A.02, subd. 3, requires the state to annually provide certain aid to the Association until it is fully funded. The state amortization aid contribution was \$724,225 and \$681,853 for fiscal years 1999 and 1998, respectively. Beginning in fiscal year 1998, the school district must make an additional annual contribution to the Association in order for the Association to continue receiving state amortization aid. The school district contributed \$400,000 and \$200,000 for fiscal years 1999 and 1998, respectively.

5. Contributions

Other Contributions (Continued)

Statutes also require active and retired members of the Association to provide contributions for the relative difference (per member) between the administrative expenses incurred by the Association and the TRA.

<u>Reserve</u>

At June 30, 1999 and 1998, \$3,325,404 and \$2,134,256, respectively, of the net assets is considered reserved as it represents the amount of state amortization aid which, pursuant to legislation, must be separately accounted for and may not be used in determining benefit increases. This is considered to be fully funded.

6. <u>Risk Management</u>

The Association is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors or omissions; injuries to employees; and natural disasters. To cover its liabilities, the Association purchases commercial insurance. There were no significant reductions in insurance coverage from coverage in the prior year. The amount of settlements did not exceed insurance coverage for each of the past three fiscal years.

Note:

The annual required contributions are actuarially determined. The employer and state are required by statute to make contributions, all of which have been made.

NOTES TO SCHEDULE 1 AND SCHEDULE 2 AS OF AND FOR THE YEAR ENDED JUNE 30, 1999

Actuarial Methods and Assumptions

The actuarial accrued liability is determined as part of an annual actuarial valuation on July 1. Significant methods and assumptions are as follows:

- The most recent actuarial valuation date is July 1, 1999.
- Actuarial cost is determined using the Entry Age Normal Actuarial Cost Method.
- The amortization method assumes level percentage of payroll each year is used to pay the unfunded actuarial accrued liability.
- The amortization period is closed.
- The remaining amortization period at July 1, 1999, is 21 years.
- Actuarial value of assets is determined using cost plus one-third of unrealized gains or losses.
- Actuarial Assumptions
 - Investment rate of return is 8.5 percent.
 - Inflation and projected salary increase based on an age-related table with rates ranging from 7.25 to 5.25 percent.
 - Two percent annual post-retirement adjustment.
 - Pre-retirement mortality using the 1983 Group Annuity Mortality Table set back five years for males and three years for females.
 - Post-retirement mortality using the 1983 Group Annuity Mortality Table set back three years for males and one year for females.
 - Disabilitant mortality using the 1987 Railroad Retirement Board Mortality Table for disabled annuitants.

Significant Plan Provision and Actuarial Methods and Assumption Changes

<u>1993</u>

- Second round of additional contributions from the state and St. Paul Public Schools.
- 90-day retroactive pension accrual.
- Coordinated plan survivor benefits made available to survivors at any age versus age 50.

1996

- Additional state and employer funding.

<u>1997</u>

- Coordinated Plan formula increased by 0.2 percent for each year of service in both tiers.
- Change in methodology used to determine post-retirement benefit increases.
- Additional state and employer funding.
- Coordinated Plan member contribution rate increased from 4.5 to 5.5 percent.
- Normal retirement age for post July 1, 1989, hires capped at age 66.
- Salary increase assumption changed to age-based system ranging from 5.25 to 7.25 percent individual increases and five percent for total payroll growth.

Schedule 3

YEAR 2000

The year 2000 issue is the result of shortcomings in many electronic data processing systems and other electronic equipment that may adversely affect the St. Paul Teachers' Retirement Fund Association's operations as early as 1999. The year 2000 issue refers to the fact that many computer programs use only the last two digits to refer to a year. Therefore, both 1900 and 2000 would be called 00. Computer programs need to be adjusted to recognize the difference between those two years or the programs will fail or create errors. Also, the year 2000 issue could affect electronic equipment--such as environmental systems, elevators, and vehicles--containing computer chips with date recognition features.

The stages of work necessary to implement a year 2000-compliant system include:

- Awareness Stage--establishing a budget and project plan dealing with the year 2000 issue.
- Assessment Stage--identifying the systems and components for which year 2000 compliance work is needed.
- Remediation and Validation Stages--making changes to the systems and equipment.
- Validation/Testing Stage--validating and testing changes.

Currently, the Association is in the validation/testing stage of testing its upgraded computer systems and other electronic equipment critical to conducting operations. The Association is also working with its vendors and service organization to ensure they are year 2000 compliant. The entire work is planned to be completed by the end of 1999. The Association has not estimated the cost involved.

Because of the unprecedented nature of the year 2000 issue, its effects and the success of related remediation efforts will not be fully determinable until the year 2000 and later. The Board of Trustees cannot ensure that the Association is or will be year 2000 ready, that the Association's remediation efforts will be successful in whole or in part, or that parties with whom the Association does business will be year 2000 ready.

Legislative Commission on Pensions and Retirement 55 State Office Building St. Paul, Minnesota 55155

Re: St. Paul Teachers' Retirement Fund July 1, 1999 Actuarial Valuation Report

Commission Members:

Pursuant the terms of our actuarial services contract, we have performed an actuarial valuation of the St. Paul Teachers' Retirement Fund as of July 1, 1999.

The results of our calculations are set forth in the following report, as are the actuarial assumptions upon which our calculations have been made. We have relied on the basic employee data and asset figures as submitted by the St. Paul Teachers' Retirement Fund.

On the basis of the foregoing, we hereby certify that, to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with the requirements of Section 356.215, Minnesota Statutes, and the requirements of the Standards of Actuarial Work, adopted by the Commission.

Respectfully submitted,

Kant

St. Paul Teachers' Retirement Fund Summary of Actuarial Assumptions and Methods

Interest:	Pre-Retirement: Post-Retirement:	8.50% per annum 8.50% per annum			
Salary Increases:	Total reported pay for prior fiscal year increased through the salary increase assumption to current fiscal year.				
Mortality:	Pre-Retirement:				
	Male:	1983 Group Annuity Mortality Table male rates set back 5 years.			
	Female:	1983 Group Annuity Mortality Table female rates set back 3 years.			
	Post-Retirement:				
	Male:	1983 Group Annuity Mortality Table male rates set back 3 years.			
	Female:	1983 Group Annuity Mortality Table female rates set back 1 years.			
	Post-Disability:				
	Male:	1987 Railroad Retirement Board Mortality for Disabled Annuitants			
	Female:	1987 Railroad Retirement Board Mortality for Disabled Annuitants			
Retirement Age:	Active Members:				
		ssumed to retire according to the graded rates e. Rates are applied beginning at the participant's ge.			
	Deferred Members:				
	Basic Members are assumed to retire at age 60. Coordinated Members are assumed to retire at age 63. If over the assumed retirement age, one year from valuation date.				
	Other Non-Vested Me	embers:			
	Return of contribution	s is assumed to occur immediately.			

Administrative Expenses:	Prior year administrative expenses (excluding investment expenses) expressed as a percentage of prior year payroll.				
Return of Contributions:	benefit were a	withdrawing after becoming eligible for a deferred ssumed to take the larger of their contributions with interest or the value of their deferred benefit.			
Family Composition:	married. Fema	85% of male Members and 60% of female Members are assumed to be married. Female is assumed to be four years younger than male. Married members are assumed to have two children.			
Social Security:	N/A				
Benefit Increases After Retirement:	2.0% per annu	m			
Special Consideration:	Additional post retirement benefit increase is accounted for by increasing the reserve value for all service retirements, disability retirements and survivors eligible for the increase by an amount that equals the excess of the five year time weighted total rate of return over the assumed interest rate of 8.50% multiplied by the quantity of one minus the rate of contribution deficiency.				
Optional Benefit Forms:	Married Mem	bers are assumed to elect the following forms of benefit:			
	Males:	35% elect life annuity option 15% elect 50% J&S option 50% elect 100% J&S option			
	Females:	80% elect life annuity option 10% elect 50% J&S option 10% elect 100% J&S option			
Actuarial Cost Method:	as a level perc	rmal Actuarial Cost Method with normal costs expressed centage of earnings. Under this method Actuarial Gains ce (increase) the Unfunded Actuarial Accrued Liability.			
Asset Valuation Method:	Cost Value pl	us one-third of Unrealized Gains or Losses.			
Payment on the Unfunded Actuarial Accrued Liability:	percentage of	d Actuarial Accrued Liability is amortized as level payroll each year to the statutory amortization date roll increases of 5.00% per annum.

Missing Data:

The submitted participant data has been reviewed for reasonableness and constancy with data submitted for prior valuations. We have not audited this data, and the results of this valuation may change based on the accuracy of the underlying data. In cases where submitted data was missing or incomplete, the following assumptions were applied:

Date of Birth:	Average age of participant group based on prior years valuation report.				
Date of Hire:	Current valuation date minus years of service.				
Years of Service:	Years of service on last year's valuation plus one year.				
Sex:	Male.				
Deferred Benefit:	Calculated. Salary at termination is estimated based on termination date. Estimated salary is \$45,369 for 1998/1999 terminations and is decreased by 6.5% for each year that actual termination precedes July 1, 1999.				

4

Supplemental Contributions:

The St. Paul School District and the State of Minnesota are scheduled to make the following supplemental contributions to the plan:

1996 Legislation:

Supplemental contributions according to the following schedule (thousands of dollars):

<u>Year</u>	State State	<u>School</u>
06/30/00	800	600
06/30/01	850	800
06/30/02	950	800
06/30/03+	1,050	800

1997 Legislation:

Annual supplemental contributions of \$2,827,000 made on October 1.

Pre-Retirement Topics

Allowable Service Credit

A full year's service credit equals 170 days worked. Partial years are calculated based on the ratio of days worked to 170 days. No more than one year of service credit is allowable during any fiscal year.

Definition of Salary

Minnesota Statutes Section 354 defines salary. Salary is the entire compensation upon which member contributions are required and made.

Refund of Contributions

In lieu of a monthly retirement benefit, a member who resigns from the place of their employment may apply for a refund of employee contributions, plus interest of 6% compounded annually. Coordinated Plan members have access to a refund of contributions at any age. Basic Plan members must be ineligible for a pension to receive a refund of contributions.

Repaying a Refund of Contributions

A member who received a refund may reinstate previous St. Paul service by repaying the amount refunded plus 8.5% interest compounded annually from the date the refund was taken. The repayment can only be made after the member has accumulated at least two years of allowable service since the last refund was taken.

Beneficiary

A beneficiary is the person, persons or organization designated to receive a refund of employee contributions plus interest upon the death of the member if no survivor or family benefit is payable. If no valid beneficiary form is on file for a member, a refund of contributions plus interest, if applicable, will be paid to the member's estate.

Marriage Dissolution

Minnesota Statutes Section 518 covers marriage dissolutions and requires that SPTRFA receive a copy of the petition and summons, as well as a copy of the affidavit of service before information will be released. In the event that the court orders that future pension benefits be divided, a formula for splitting the benefit should be put into the dissolution decree. All inquires are kept confidential.

Retirement Topics

Basic and Coordinated Plans

"Basic Plan members," all of who were hired prior to July 1, 1978, do not contribute to Social Security. Basic Plan members are vested once they have five years of retirement credit.

All members hired since July 1, 1978 contribute both to SPTRFA and Social Security and are known as "Coordinated Plan members." Coordinated Plan members are vested once they have three years of retirement service credit.

Steps to Retirement

When planning to retire, members should contact SPTRFA to set up an appointment to apply for pension benefits. It is advisable that the members contact the office up to 60 days in advance of retirement. All inquiries are kept confidential.

A member may apply for retirement benefits up to 90 days after the last date of employment provided that the member has not returned to employment. The retirement benefits would be retroactive to the first eligible retirement date after the termination of employment.

Deferred Pension

A deferred pension is available to members who terminate employment after they are vested. A deferred benefit may begin to be paid at age 55.

The benefit is computed by applying the normal retirement formula at the time of termination. It will be augmented by 3% each year until the member is age 55 and augmented by 5% each year thereafter. This augmentation continues until the member chooses to begin receiving his/her monthly benefit. If the member begins to receive a benefit before normal retirement age, applicable discounts will apply.

Combined Service

The Combined Service Law provides for the combination of a member's service in all public funds in Minnesota to determine benefits at the time of retirement.

The total credited years of service in all funds will be considered when determining eligibility for benefits. Benefit payments will be made by each fund in which the member has credited service.

Retirement Topics, Continued

Disability Benefit

A disability benefit is payable to members who become totally and permanently disabled. Members must be vested to be eligible for a disability benefit. Members may not have more than 60 sick days remaining at the time of application for the benefit, and they must have used all sick days prior to beginning the benefit.

In the Coordinated Plan, the disability benefit is calculated as the unreduced pension benefit amount using the member's years of service and final average salary at the time of the disability, less any benefits received from Worker's Compensation. The member may also apply for a disability benefit from Social Security.

A Basic Plan member's disability benefit is calculated to be 75% of the member's earnings for the last full year of service, less any benefits received from Workers' Compensation or Social Security.

Basic Plan Retirement Options

Basic Plan members receive a formula benefit payable for life. Survivor benefits are based on the ages of the member and spouse at the time of retirement. The survivor benefit does not cause a reduction in the member's benefit.

Coordinated Plan Retirement Options

At the time of retirement, Coordinated Plan members select one of the five optional annuity plans.

C-1	No Refund	Formula benefit payable for life to the member, with no refund payable to a beneficiary.
C-2	Guaranteed Refund	Formula benefit payable for life to the member that is reduced by use of actuarial tables to provide reduced benefit payments for life to the member and a guaranteed refund of unused member contributions to the beneficiary.
C-3	15-Year Certain	Formula benefit reduced by use of actuarial tables to provide reduced benefit payments for life to the member with the guarantee that payments will be made for at least 15 years. If the retiree dies before receiving payments for the guaranteed 15 years, the beneficiary will be paid the same monthly annuity for the remaining years of the guarantee.
C-4	100% Joint & Survivor	Formula benefit that is reduced by use of actuarial tables to provide reduced payments for life to the member and the same amount payable to the survivor for life with no refund.
C-5	50% Joint & Survivor	Formula benefit that is reduced by use of actuarial tables to provide reduced payments for life to the member and 50% of the reduced amount payable to the survivor for life with no refund.

If a Coordinated Member elects a joint and survivor option, and the spouse dies before the member, the member benefit will be increased to the C-1 amount. This is called the "pop-up" feature.

Post-Retirement Topics

Teaching After Retirement

If a retired member of SPTRFA is reemployed by ISD #625 or by a charter school or technical college located within the corporate limits of St. Paul, earnings are limited to the amount that causes a reduction in the primary Social Security benefit for that calendar year. If the retiree earns more than the allowable amount, the pension will be reduced one dollar for every three dollars the member earns over the limit. A retired member can work for any other employer without losing pension benefits.

Post-Retirement Increase

The post-retirement increase is an annual guaranteed 2% compounding increase. An "excess investment earnings increase" will be paid in addition to the guaranteed 2% increase in years when SPTRFA's five year annualized rate of return exceeds 8.5%.

Retirees must be retired for one full year at the end of SPTRFA's fiscal year (July 1-June 30) to qualify for the post retirement increase. Eligible retirees receive adjustments on January 1 of each year.

Pre-78 Supplemental Bonus

An annual supplemental bonus payment is paid to retirees who retired before July 1, 1978.

Coordinated Plan Summary of Tier Benefits

Vested members of the Coordinated Plan are eligible to receive a lifetime monthly pension based on the member's Final Average Salary (FAS), Years of Service (YOS) and Applicable Service Factor (ASF). Members first hired after June 30, 1989 are only eligible for Tier II benefits.

The following chart provides an overview of the Tier I and Tier II retirement benefits:

Benefit	Minimum Age	Minimum Service	Computation of Benefit
Tier l			
Normal Unreduced Benefit	62	30	Formula = FAS x [YOS (10) x 1.2% ASF + YOS (in excess of 10) x 1.7% ASF].
			The Rule of 90 will also produce an unreduced benefit in Tier I.
Normal Reduced Benefit	Any Age	30	Formula reduced by discount of 0.25% for each month a member's age is under 62.
Tier II			
Normal Unreduced Benefit	65 if first employed before July 1, 1989.	3	Formula = FAS x YOS x 1.7% ASF.
	65-66 if first employed after June 30, 1989.		
Normal Reduced Benefit	55	3	Formula reduced by the use of actuarial tables.

Basic Plan Summary of Tier Benefits

Vested members of the Basic Plan are eligible to receive a lifetime monthly pension based on the member's Final Average Salary (FAS), Years of Service (YOS) and Applicable Service Factor (ASF).

The following chart provides an overview of the Tier I and Tier II retirement benefits:

Benefit	Minimum Age	Minimum Service	Computation of Benefit
Tier l			
Normal Unreduced Benefit	60	25	Formula = FAS x YOS x 2.0% ASF.
Deneju			The Rule of 90 will also produce an unreduced benefit in Tier I.
Normal Reduced Benefit	55	25	Formula reduced by discount of 0.25% for each month a member's age is under 60.
Tier II			
Normal Unreduced Benefit	65	5	Formula = FAS x YOS x 2.5% ASF.
Normal Reduced Benefit	55	5	Formula reduced by the use of actuarial tables.

2000 Administrative Service Charge

As part of the 1993 increased funding package, SPTRFA members, both active and retired, pay an "administrative service charge" to be applied to the fund's administrative expenses.

This charge applies whenever the administrative expenses for the previous fiscal year exceed the comparable administrative expenses in the State of Minnesota Teachers Retirement Association (TRA).

This year, there is no administrative service charge to the active or retired members of SPTRFA because our administrative expenses for the fiscal year 1998-99 are lower than the comparable charges of TRA.
