## **The National Guard Missions**

The guidon bearer for Battery E, 151st Field Artillery receives a coin from the State Sergeant Major before leaving for Sarajevo to support Operation Joint Endeavor.

The National Guard is unique among the United States reserve military forces, performing both federal and state missions. In peacetime, the National Guard is commanded by the governors of the states and territories and may be called to state active duty in response to natural disasters, civil disturbances, or other state emergencies.

During a war or national emergency, the National Guard may be called to federal active duty by the President or Congress, and serves as the primary source of augmentation for the active Army and active Air Force. The "dual mission" of the National Guard has its roots in Article 1 of the United States Constitution.

The men and women of the National Guard are described as citizen-soldiers and airmen. They have full-time civilian careers, but each month they meet with their unit for military training. They use the same equipment, and wear the same uniform as their active duty counterparts.

The map on the last page of this report shows Minnesota National

Guard installations spread evenly across the state. This distribution of soldiers, airmen, facilities and equipment enables the National Guard to quickly and efficiently respond to an emergency in any area.

Soldiers clear debris in Hawley, Minn. after high winds downed trees.

# **Community Mission....**

Soldiers clear brush in a Rosemount park to assist the community.

The National Guard's dual mission of service to nation and state is unique among all branches of the United States armed forces. The Guard is America's community based defense force, located in more than 2,700 cities and towns, some 60 of them right here in Minnesota.

National Guard members are citizen-soldiers and airmen who are integral members of their communities. Guard members live, shop, work, worship, and go to school in Minnesota's cities and towns.

This inexorable link between the community and its citizen soldiers is what makes the National Guard unique.

The Minnesota National Guard takes its "community mission" very seriously, and is participating in several programs that reinforce this commitment.

Minnesota's 58 Training and Community Centers, formerly called armories, located throughout the state provide shared meeting and recreational space for the local community. Facility costs are met by a partnership of federal, state and local governments. One recently built center was an addition to an existing high school.

The National Guard is also very

involved in education. One program which is sponsored by the Minnesota National Guard is STARBASE.

STARBASE is a non-profit corporation funded, in part, by the Minnesota National Guard. It conducts a number of educational programs designed to increase youth awareness of mathmatics, science and technology by using aviation and aerospace curriculums. Classroom instruction can be conducted at the STARBASE facility at the 133rd Airlift Wing base in Minneapolis, or STARBASE can provide the curriculum to individual schools and school districts for incorporation into their own programs.

The Minnesota National Guard is also very active in community based drug demand reduction education. This program is discussed in more detail on page 16 of this report.

Students are tested on what they've learned at STARBASE.

# **Army National Guard**

The Minnesota Army National Guard includes about 9,000 men and women who belong to units that train in the Guard's 61 Training and Community Centers located across the state. They train to meet the same standards as their active duty counterparts.

Most of these citizen-soldiers belong to the 34th "Red Bull" Infantry Division. The historic "Red Bull", headquartered in Rosemount, has units in Minnesota, Iowa, Illinois and Wisconsin. The Minnesota units include military police, communications, armor, engineers, aviation, medical, artillery, infantry, supply, transportation, and maintenance.

The rest of Minnesota's Army Guard soldiers are assigned to either Troop Command, State Area Command or Camp Ripley. The Roseville-based Troop Command units include medical professionals, transportation, public affairs,

Field Artillery soldiers conduct annual training.

finance and personnel specialists. Personnel assigned to Camp Ripley manage the use and facilities of the 53,000 acre training installation. State Area Command, the Army Guard's main headquarters in St. Paul, includes the Adjutant General's office and general support staff.

Soldiers of Company C, 142nd Engineers build a road in Panama.

*Capt. Greg Thingvold shows one of the Cobra helicopters that will be flying with the new 3rd Battalion, 147th Aviation (Attack Helicopter).* 

The Minnesota Army National Guard's new 1st Battalion, 216th Air Defense Artillery was brought into the state this year.

## **Air National Guard**

Today's Minnesota Air National Guard traces its lineage to the 109th Observation Squadron, which in 1921 became the first federally-recognized flying unit in the National Guard. Throughout its history the Minnesota Air National Guard has proudly served both state and nation.

Trained to the same standards as their active duty counterparts, Air Guard members are fully combat-ready and completely integrated into the nation's defense structure.

### **133rd Airlift Wing**

The 133rd Airlift Wing (AW) located at the Minneapolis - St. Paul International Airport, is an air transport organization flying C-130 Hercules aircraft. Its normal flying operations include air-drop training and transport missions.

The four-engine C-130 turboprop aircraft can land on short runways or airdrop personnel and equipment into areas lacking an airfield. These capabilities are well suited for disaster relief missions.

The 133rd AW's mission is to provide combat-ready air crews, support personnel, and aircraft for the airlift of passengers and cargo anywhere in the world. Upon request of the Governor, the unit can furnish personnel and equipment, including aircraft, to assist in natural disaster relief or to safeguard life and property in Minnesota.

The 133rd Airlift Wing celebrated its 75th Anniversary by receiving eight new C-130 H cargo aircraft.

An F-16 takes off from Tyndall Air Force Base, Fla. The 148th Fighter Wing maintains a detachment at Tyndall Air Force Base around the clock.

### 148th Fighter Wing

The 148th Fighter Wing (FW), located at Duluth International Airport, is a fighter unit flying F-16 aircraft in an air defense role. It also maintains aircraft and crews on runway alert around the clock, 365 days a year, at Tyndall Air Force Base, Florida.

The 148th's federal mission is to maintain air sovereignty and support air defense operations. Additionally, the 148th provides personnel and equipment for state emergencies when needed.

### Other Air National Guard Units

The 208th Weather Flight, colocated with the 133rd Airlift Wing, provides combat-ready weather observers and forecasters for the active Air Force and the Army Guard's 34th Infantry Division.

The 210th Engineering Installation Squadron (EIS) supports the active Air Force worldwide by providing teams to install, repair and replace telecommunications and electronic equipment.

## **Overseas Training**

Both the Air and Army National Guard train outside the United States to practice the skills needed for loading and moving people and equipment overseas. Overseas training prepares National Guard units for actual mobilization.

# **Camp Ripley**

Camp Ripley, located seven miles north of Little Falls, is the primary field training site for the Minnesota National Guard. The state-owned site provides state-of-the-art, year-round military training facilities to units of virtually every branch of the service from across the nation. The National Guard Bureau has also designated Camp Ripley as the primary winter training site for National Guard units.

The camp's 53,000 acres of varied terrain provide ideal territory for military tactical training. The installation has a bridging site on the Mississippi River; numerous weapons ranges; an airfield runway which provides enhanced accessibility to out-of-state military units; all-season troop housing; and a medical clinic.

Camp Ripley has an important economic impact on communities in central Minnesota, bringing in more than \$96 million annually.

Winter operations training is a specialty at Camp Ripley.

The Camp Ripley Education Center is being used by an increasing number of civilian agencies.

Camp Ripley is also Minnesota's second largest wildlife refuge, managed in cooperation with the Minnesota Department of Natural Resources.

During the past year, the Minnesota Legislature designated Camp Ripley as the official training center for state agencies. While military training remains the primary focus, several civilian agencies are taking advantage of the unique environment provided at Camp Ripley.

# **Counterdrug Program**

# Interdiction and Eradication

The Minnesota National Guard supports law enforcement agencies in their efforts to reduce the supply of illegal drugs. The Guard assists in the interdiction of illegal drugs flowing into this country and in the eradication of drugs grown and manufactured within the state. Guard assistance includes aerial and ground reconnaissance and surveillance, transportation, cargo inspection, and administrative/ maintenance support. Guard assistance helped eliminate millions of dollars of illegal drugs from Minnesota streets.

During fiscal year 1996, the Minnesota National Guard assisted in seizing almost \$7 million in drugs, cash, property and other assets.

The Guard also assisted in 122 arrests.

Dear Minnesota National Guards, - Minnesota Waturan-Thank you so much for bac neug helicopter in and talking helicopter. for bringing Seen a neli realli learned abour you crash is the to learned in school -get we need glad that you Money 4 comput in and talking

Many students write letters like this one to thank those who bring drug demand reduction programs to schools througout the state.

### **Drug Demand Reduction**

Despite efforts in interdiction and eradication, the demand for drugs continues to thrive. The Minnesota National Guard believes the war on drugs will be won through drug demand reduction efforts. The Guard works in conjunction with existing community organizations to tell young people across the state about the dire consequences of drug use and help them develop the skills necessary to choose a drug-free life. The Guard's involvement enhances community programs and helps to form partnerships in the fight against drugs.

Working with law enforcement officials, the Minnesota National Guard conducts helicopter "fly-ins" in communities to

complement local education programs.

During the past year, Minnesota National Guard personnel spoke to almost 26,000 students in communities throughout the state.

The National Guard Supports

A Drug Free America

The Drug Demand Reduction Program visits dozens of elementary schools each year.

## **Family Programs**

The support received from the families of Minnesota National Guard soldiers and airmen greatly contributes to the successful accomplishment of the Guard's missions. The National Guard's Family Program endeavors to develop and nurture that support through its various activities and programs. These programs include: family support groups within the units; volunteer training; family assistance briefings to units and families going through mobilization training; and a summer Youth Camp held at Camp Ripley for 10-12 year old children of Guard members.

The Guard's family assistance office also helps family members of active duty personnel, and establishes assistance centers across the state during a major military operation such as Operation Desert Storm.

Minnesota National Guard sponsored Youth Camp teaches youth about the Guard.

This year the Minnesota National Guard broke ground for a new Training and Community Center in Inver Grove Heights.

## History

### **Origins of the National Guard**

The idea of a militia, or body of citizen soldiers as distinct from career soldiers, was borrowed from England and dates in this country from 1636, when three militia regiments were organized for the common defense in the Massachusetts Bay Colony. Militia companies were eventually organized throughout colonial America, and they provided its principal defense force.

In spite of shortcomings, the various colonial militias became indispensable to the cause of American independence. They were the back-up for General Washington's Continental Army, providing large numbers of armed men when needed on short notice, and they assured the authority of colonial governors against British sympathizers. Later, the United States Constitution (Article 1) and Militia Act of 1792 provided for continuation of a state-based militia system. The federal government could employ the militia for purposes of national security, but its organization was left with the individual states.

### Minnesota's Early Militia

Minnesota formed a Territorial Enrolled Militia in 1850, but it only existed on paper until April 1856 when the first uniformed, volunteer company was formed in St. Paul. Called the Minnesota Pioneer Guards, it was a source of such civic pride that soon nine other companies were formed in St. Paul, St. Anthony (Minneapolis) and in river towns from Stillwater to Winona. Minnesota's National Guard traces its beginning to these early militia companies.

### The Civil and Indian Wars

When the Civil War broke out in April 1861, volunteers from Minnesota's militia formed a nucleus for the first three companies of the First Minnesota Volunteer Infantry Regiment. Both sides in the war had to rely on volunteer regiments, battalions and separate companies recruited by the states. The "First Minnesota" is officially recognized as the senior such regiment in the Union Army because Alexander Ramsey was the first governor to offer state troops to President Lincoln. The regiment went on to serve with distinction in the Army of the Potomac and became legend as a result of its gallant charge at Gettysburg on July 2, 1863.

Minnesota eventually organized and recruited volunteers for 11 infantry regiments, two cavalry regiments, a heavy artillery regiment, three light artillery batteries and two sharpshooter companies, totalling 22,000 men. Many of these soldiers also served on Minnesota's frontier; in fact, hastily organized local militias and detached companies from several volunteer regiments were the only line of defense during Minnesota's Dakota (Sioux) War of 1862.

After the Civil War, the Minnesota Militia re-emerged to become officially known as the Minnesota National Guard. These

Maj. Gen. Charles Bolte, Commanding General of the 34th Division, pins the Legion of Merit on Staff Sgt. John Culhane of Minneapolis, for outstanding service with Company D, 135th Regiment, June 1945.

organizations became a colorful part of community social life but when called upon never failed to deal with civil disturbances and other state emergencies requiring military aid. Annual summer encampments were held at Camp Lakeview on Lake Pepin near Lake City. Control was vested with the state and funding came largely from modest state appropriations and from the members themselves.

### The Spanish American War and Beginnings of Federal Control

Minnesota's National Guard was converted to four U.S. Volunteer Regiments when the war with Spain began in April 1898. Only the First Regiment, however, was destined to see foreign service. Redesignated during the war as the Thirteenth Minnesota Volunteers, it fought Spanish troops and Filipino insurrectionists in the Philippines to 1899.

The U.S. gained status as a first-rate world power as a result of its war with Spain, but the war also called attention to serious military deficiencies. Among them was the nature of the National Guard, which had been functioning, more or less, as a group of autonomous "state armies." Landmark federal legislation in 1903, 1908 and 1916 resulted in federal controls that brought standardization and affirmed the National Guard as the Army's primary organized reserve.

### World War I

In July 1916, because of border raids conducted by Pancho Villa and the courting of an unstable Mexican government by Germany, President Wilson used his new legal authority to mobilize the nation's entire National Guard for patrol duty on the U.S.- Mexican border. The Minnesota Guard was sent to Camp Llano Grande near Mercedes, Texas. Although they never saw fighting, their border duty helped prepare them for a much bigger challenge: World War I.

Barely home from Texas, Minnesota Guardsmen were again mobilized when the United States entered the war against Germany in April 1917. Most went directly to Camp Cody near Deming, New Mexico, for training with a newlyorganized 34th "Sandstorm" Infantry Division. The 34th consisted of Guardsmen from Minnesota, the Dakotas, Iowa and Nebraska.

To the dismay of its men, however, the 34th was eventually named as a depot division and broken up. Minnesotans were reassigned and sent to France as individual replacement troops while the division was reorganized and filled with new draftees from the southwest. Fortunately, Minnesota's field artillery regiment remained intact. Redesignated as the 151st Field Artillery, it became part of the 42nd "Rainbow" Division where it fought with great distinction in France.

### Reorganization

The years following the First World War found the Minnesota National Guard preoccupied with reorganization, recruitment and armory construction. Minnesota's 109th Observation Squadron became the first federally-recognized flying unit in the National Guard in January 1921. In June 1931, a new field training site was opened to troops at Camp Ripley north of Little Falls. It took its name from Fort Ripley, a long-abandoned 19th century army post which, coincidentally, had been located on land purchased for the new National

Guard training camp.

#### World War II

With war threatening in Europe and the Far East, the Minnesota National Guard was mobilized again in February 1941. Most troops went to Camp Hahn, near Riverside, California, for coastal anti-aircraft artillery training or to Camp Claiborne, Louisiana, for training with the 34th Infantry Division.

The 34th (soon to be renicknamed as the "Red Bull" Division) became the first American Division to leave for Europe in January 1942. It fought through North Africa (where men of Minnesota's 175th Field Artillery fired the first American shells against the Nazis), and Italy. Brainerd's tank company, after training with its newly organized 194th Tank Battalion at Fort Lewis, Washington, was shipped to the Philippines in September 1941 to shore up American defenses there. When war broke out in December, the 194th fought the Japanese into the Bataan Peninsula and endured the tragic Bataan Death March. The 109th Observation Squadron ended up in Europe where it initially flew Mark V "Spitfires" with the Royal Air Force and, later, reconnaissance missions with P-51 "Mustangs."

The Minnesota National Guard became part of a newlyorganized 47th "Viking" Infantry Division following World War II, and its airmen became part of a new Air National Guard.

#### Korea

America again found itself at war in 1950-this time in Korea. In January 1951, as a result of the massive and sudden reinforcement

Men of the 34th Infantry Division catch up on home town news in the San Vittore area, Italy, January 1944.

of North Korean forces by soldiers from Communist China, the Minnesota Guard was again called up. Many of its members were seasoned World War II veterans and the 47th Division was selected to serve as a training division for two years during the Korean conflict. Most of its personnel were eventually reassigned as replacement troops in Korea or Germany. Minnesota's Air Guard was also activated, contributing pilots to Korea's "Mig Alley."

#### The Berlin Crisis and Vietnam

Threats by Russia to oust Western troops from West Berlin in 1961 prompted the "Berlin Crisis" and a call-up of selected National Guard forces throughout the nation. Included in this mobilization were members of the 133rd Air Transport Wing, Minnesota Air National Guard, who served in federal active service for 11 months while operating out of their home station at the Minneapolis-St. Paul Airport. During the Vietnam War, although never officially mobilized, the Air Guard flew hundreds of supply and transport missions to Southeast Asia.

#### **The Persian Gulf**

Growing tensions in the Persian Gulf erupted in August 1990 when Iraq invaded its tiny, enormously wealthy neighbor, Kuwait. Within months this oil-rich region experienced the largest deployment of American combat forces since World War Two. "Operation Desert Shield," intended to protect Saudi Arabia, became "Operation Desert Storm," when a US-led international coalition used its military might to quickly liberate Kuwait and destroy Iraq's army and air force.

Unlike the war in Vietnam, Desert Shield/Desert Storm made heavy use of reservists. About a fourth of all U.S. military personnel deployed to the Persian Gulf were from the National Guard and Reserves. Over 600 Minnesota Guard members volunteered or were activated with their units, including the 109th Aeromedical Evacuation Flight, 109th Light Equipment Maintenance Company, the 1187th Medical Company, and the 257th Military Police Company. The war was over by April 1991, and soon Minnesota's troops headed home to a heroes' welcome.

#### Bosnia

The 135th Public Affairs Detachment left in June 1996 for Germany to support Operation Joint Endeavor. They were followed in August by Battery E, 151st Field Artillery when it deployed to Sarajevo, Bosnia. Members of the 109th Aeromedical Evacuation Squadron and other volunteers also served in support of the active Army and Air Force.
